COVID-19 VACCINATION CERTIFICATE

- To download your vaccination certificate you will need your vaccination code, and the ID, Passport, Asylum or Refugee number you used when you registered for your vaccine.
- If you lost your EVDS vaccination code or did not receive a code via SMS you can call 0800 029 999.
- New versions of the certificates will be introduced over time with extra security and features.
- Many countries will accept the digital COVID-19 Vaccination Certificate for travel, but you need to check the policy of the country you are visiting. You'll need to show your certificate along with your passport.
- The certificate includes the name of the vaccine you received (not the manufacturer). The J&J vaccine is called Janssen. The Pfizer vaccine is called Comirnaty.
- If you experience any difficulties downloading your certificate or if your personal details are not correct, call 0800 029 999 or send an email to: evdsqueries@health.gov.za.
- Get your COVID-19 Digital Vaccination Certificate at <https://vaccine.certificate.health.gov.za>
